Registration at : www.forum.gdynia.pl

SHIPBUILDING INDUSTRY / room C

leader: **Commander Bartłomiej Pączek, PhD** – Dean of the Faculty of Command and Maritime Operations at the Naval Academy in Gdynia
Implementation of the Polish Navy development programme

- ▶ Perspectives and determinants for the development of the Polish Navy.
- ▶ Opportunities and threats to investments in light of the war in Ukraine.
- ▶ Assessment of the current state of the Navy and its development scenarios.
- ▶ "Miecznik" (Swordfish) programme as the key modernization project for the Polish Navy.

SEA PORTS / room D

leader: **Piotr Pawłowski** – Chairman of the Council of Stakeholders of the Port of Gdynia

Development of Polish ports in light of new legal regulations

- ▶ How has the 1996 Act on Ports and Harbors changed the image of our ports?
- ▶ What are the opportunities and threats posed by recent amendments and legal changes to the Port Act?
- ▶ Will Port Authorities remain managers and administrators of port infrastructure or will they indirectly carry out its operations?
- ▶ What are the risks of combining the functions of market regulator and market participant?

MARITIME LOGISTICS / room E

leader: **Marek Tarczyński** – President of the Polish International Freight Forwarders Association (PIFFA), President of the Management Board of Terramar Sp. z o.o., moderator: **prof. Andrzej Grzelakowski**.

Maritime logistics in the face of new global and regional challenges in the current decade of the 21st century.

- ▶ Assessment of the current state of development and condition of the global and European TSL sector.
- ▶ New market and regulatory challenges for the European TSL sector and an assessment of their potential impact on the maritime logistics segment.
- ▶ Polish maritime logistics sector in the face of global and regional challenges.

RENEWABLE ENERGY / room F/H

leader: **Andrzej Popadiuk** – Stakeholder Manager – Equinor in Poland

Perspectives and challenges for offshore wind energy

- ▶ Poland is facing a great opportunity to be a leader in offshore wind energy in the Baltic and a significant European producer of green energy.
- ▶ Perspectives and challenges related to ensuring the country's energy independence, including: cheaper electricity, economic growth, regional development, new jobs and climate improvement.
- ▶ Analysis of opportunities and challenges facing the OWE sector and the Polish energy sector.

YACHTING BUSINESS / room G

leader: **Tomasz Chamera** – President of the Polish Yachting Association, Vice President of World Sailing

Technological progress and sustainable development strategies in the aquatic business – economic and geopolitical challenges

- ▶ Examples of modern technological solutions that found a practical application in the sector.
- ▶ Importance of environmentally-friendly solutions – visions vs reality.
- ▶ Economic and geopolitical challenges – growth or "forced" stagnation?
- ▶ Short- and long-term perspectives.

SEMINAR "Cybersecurity in the maritime sector – challenges and threats in 2023" / room A

leader: **Rafał Cichocki** – head of the Maritime Cybersecurity Center at the Maritime University in Gdynia

- ▶ Global Threat Landscape 2023 - Cybersecurity threat landscape in the maritime economy
- ▶ Challenges to the cybersecurity of the maritime sector in light of events related to the attack on Ukraine: is Polish maritime infrastructure prepared to fend off attacks by organized crime and agencies of certain countries?
- ▶ How to respond to the challenges of a modern cyber battlefield?
- ▶ How to conduct cybersecurity audits in maritime companies?
- ▶ How to build security systems in this type of enterprise?
- ▶ How to build supply chain security?
